—"Elastic Shaving and Physiognomical Hair Cutting" is the legend inscribed on a barber's pole in the village of Genesee.

—Housekeepers, do you want sweet, wholesome bread? Ask your grocer for National Yeast. It is quick and pure, and never fails.
—Read that card from 13 soldiers of Catlin, who repudiate the signing of their names to the *Gazette and Free Press* Hancock roll.
—Where is that "John Bally" who can show his discharge papers, and who signed the Hancock roll? Somebody ought to earn that reward.

—The Chemung County Agricultural Society announces, in its premium list, that "competition is open to the world, except in cane sugar."
—The infant son of Mr. and Mrs. Stephen C. Gray, died Sunday evening, of cholera infantum. His name was Hiram Gray, after his grandfather, Judge Hiram Gray.

—Frank Angel, of Bradford, Steuben Co., has been arrested for alleged poisoning of Seymour Silvernail, an account of which appeared in the *Advertiser* one day last week.
—Mrs. Amelia Rowley, of Big Flats, was operated upon for cataract, at the Surgical Institute yesterday. Dr. Up de Graff has six engagements for cataract operations so far this month.

—Mr. H. M. Partridge was taken ill last Saturday with summer complaint. Mr. Partridge has not been obliged to be absent from his business before, on account of sickness, for thirty years.
—We would suggest that policemen be detailed for duty at Hoffman's Grove this afternoon, not because of necessity from any conduct of the Emancipators, but to protect them from outside interference.

—The Emancipation celebration ball, under "Jolly Boys" auspices, take place in Military Hall. We are requested to state that the ball advertised for the Academy of Music is an imposition and an unfriendly affair.
—Mr. M. Markham, formerly head salesman in S. V. Lines & Son's boot and shoe store, in this city, has accepted a desirable position with C. C. Mathers & Co., of Wellsboro, Pa. His many friends wish him success in his new enterprise.

—There are two names signed to the Hancock Legion whose owners live in the town of Veteran. One is just eighteen years old, and the other is twenty-six. At the time of the breaking out of the war the first named "veteran" was—well, he was born about two years after.
—Why Kennedy, at 106 East Water street, Elmira, N. Y., is the cheapest grocer in America, at wholesale or retail. His Every article he deals in is bought of first hands, in large quantities, for cash. He sells for

cash only, and warrants every article. He has more teas in stock than any two of his competitors.

—The showers yesterday had the effect to drop the weather from 89 at noon to 74 at three o'clock.

—Mr. G. R. McChesney, well known in Elmira, has resigned the position of deputy for Collector Van Horn, of Rochester, and has been appointed general agent of an insurance company.

—Dr. Pratt, of the *Corning Journal*, has been in the editorial harness twenty-nine years, and is not yet ready to retire. It is time he was sent to Congress.—*Watkins Express*. That is a good suggestion.

—The *Binghamton Republican* is of opinion that it would have been a good thing if the visits of Angel, to the wife of Silvernail, of Steuben county, who he is accused of poisoning, had been fewer and farther between.

—The *Ithaca Journal*: "A pretty Philadelphia girl, stopping at Enfield Falls, attracted so much attention in church last Sunday that it is related the minister took" the congregation to task for not paying better heed to him."

—Ingalls & Co., 108 West Water street, continue this week their closing out sale of a large bankrupt stock of boots, shoes and slippers recently received. It will pay every one to call and examine before buying elsewhere.

—Dr. Krackowicz has "pronounced" against General Garfield. We presume from this that he will vote for Hancock; but if not, there are yet left General Weaver, or Neal Dow. At any rate, Gen. Garfield may be congratulated.

—Emerson says everything good in man leans on something higher. Emerson, we believe, is right. One evening this week we saw a man leaning on a telegraph pole, and the only good in him was beer. At least he said it was good.—*Havana Journal*.

—The Watkins soap factory has ceased to be. The *Democrat* says "the original manufacturers have left for fresh fields and pastures new." They have probably gone where soap is more appreciated than it is in Watkins. So comments the jubilant *Havana Journal*.

—The colored people's ball at the Military Hall this evening, will probably be the toniest and grandest one of the kind ever held in the Southern Tier. No doubt a large number of white people will be seen among the spectators. The trimming of the Hall has been elaborately and tastefully performed.

—A farmer near Dunkirk, who evidently had a full share of city visitors to recruit on country air, has placed the following sign over his front door: "To Visitors—We are glad to see you, and you are welcome to the very best this house affords for the space of three days. After that you must pay your board or go to work."

—At the meeting of the Board of Education last evening, Mr. F. M. Beardsley was reappointed Principal of Grammar School No. 5. This appointment leaves the heads of the schools principally as before the vacation. Mr. Beardsley is visiting in Onondaga county, and has been notified of his reappointment by Superintendent Merrell.

—For the entertainment of the Knights at Chicago, the *Tribune* of that city states that "some of the clubs of Chicago—all will doubtless do so—have already notified the Triennial Committee that they intend throwing open their rooms to the Knights and receiving them on a par with members. Resolutions to this effect have been passed by the Calumet Club, the Owl Club, and the Chicago Press Club."

—If you start with a boat from Fitch's Bridge to row down to Elmira, you will find that the wind is dead against you, and you only have consolation in the thought that when you get ready to row back the wind will be in your favor; but if you are a close observer you will be reminded that whichever way you are rowing the wind will suddenly change, and blow against your back. We've tried it, and know.

—The National Camp Meeting Association will hold a meeting at Spencer on the U. I. & E. R. R. commencing on Wednesday next and holding over the Sabbath. Interesting speakers from abroad may be expected, including Mrs. Mary T. Lathrop of Michigan, Mrs. Annie Wittmeyer of Philadelphia, Rev. D. C. Babcock, of Philadelphia, Rev. Dwight Williams and others. The address of welcome will be given by the Rev. H. F. Spencer of this city.

Third Ward Republican Meeting.

All voters of the Third Ward, supporting Garfield and Arthur, are requested to meet at the Armory on Baldwin street, Friday, August 6th, at 8 P. M. A large attendance is desired.
By order of Chairman.

Youthful Burglars.

Last Friday night the grocery store of Mr. O. M. Wixon, near Carr Corners, was burglarized, of a number of articles taken from a show case. Three lads of about fourteen years of age, who live in the neighborhood, were missing the next day. It is supposed they went to Hornellsville. One of them named Peterson, a colored lad, but not very colored, returned yesterday, and was arrested by Mr. Wixon, and taken before the Recorder, but he would not squeal. None of the lads are highly regarded for uprightness of character. We believe the names of the others are Stage and Brockaway.

THE CELEBRATION

They say that "the event is to celebrate and commemorate the great declaration which has freed a nation and gladdened the hearts of four millions of our race; the memory of which must always remain fresh in our hearts and stand as one of the greatest acts in the Nation's history. Let the friends of humanity come from every city, town, hillside and hamlet in the State and give thanks to Almighty God for blessings bestowed. We cordially invite all, without regard to race or color, to join with us."

SKETCH OF FREDERICK DOUGLASS.

Frederick Douglass, the orator of the Emancipation Day celebration in this city to-day is perhaps the most remarkable man of his race now living. One of the Encyclopedias states that he was born at Tuckahoe, Maryland, in 1817. His mother was of pure colored blood, and his father a white man. He was a slave upon the plantation of Col. Edward Lloyd until he reached the age of ten, when he was taken to Baltimore, where he secretly taught himself to read and write. At the age of twenty-one he fled from slavery and went to New York,

where he betook himself to New Bedford, where he supported himself by day labor at the wharves and in the workshops, and subsequently married. In the Summer of 1841 he spoke at an anti-slavery convention at Nantucket, and soon afterwards became an agent of the Massachusetts Anti-Slavery Society. He soon acquired a high reputation for his eloquence and strong mental qualities and for four years traveled and lectured in New England. In 1845 he published his autobiography, and soon afterward went to Europe, where he lectured on slavery in nearly all the cities of Great Britain. While in that country his friends contributed \$150 to buy him from his old master in Maryland, and he still claimed him as his property, and he was manumitted in due form. On his return to this country in 1847 he began the publication of a weekly newspaper called *Frederick Douglass' Paper*, at Rochester in this state. For many long years he labored unceasingly to secure the freedom of his race, taking the ground that slavery was illegal and unconstitutional. In 1855 he wrote his autobiography under the title of "My Servitude and those who desire a more intimate knowledge of this remarkable man would do well to read it. In 1850 he became the editor of the *National Area*, a periodical designed to advance the interests of the colored race. He was made Marshal of the District of Columbia by Mr. Hayes at the beginning of his administration, a lucrative position which he soon holds. Mr. Douglass is an orator of his mean ability and those who take advantage of the opportunity afforded to him to list to him will have no reason to regret their attendance. He has ever labored zealously for the elevation of his race, and no better choice than he could have been made for the orator of Emancipation Day.

Mr. Douglass arrived in the city last evening at 11 o'clock, and went to the Delevan House.

Sad and Sorrowful Death of Seward Mills.
Seward S. Mills, only child of Theodore and Mary M. Mills, passed away at Wyckoff Camp yesterday morning, between eight and nine o'clock, of diphtheritic croup. He was seven years, nine months and twenty days old.

A bright and promising boy has departed from a host of friends on earth to the innumerable company in heaven. One who knew him well says that, about nineteen months ago, he became deeply interested in Jesus and his work, since which time his daily prayers and Christian conversation have manifested his growth in the knowledge and grace of our Lord Jesus Christ. He won all by his gentle and loving manners, and has won an inheritance in heaven. Sad are the sorrowing parents and their many friends, and unfeigned is the sympathy felt for the childless, and yet hopeful all that the cheerful good-by he bade his parents and friends a few minutes before death, will be followed by his cordial welcome of them all where there is no more death.

The funeral will be observed this afternoon at 5 o'clock, at the home of his parents, No. 211 Lorimore street.

The circumstances attending the illness of the lad were very touching. The lad was not quite well when the party went into camp, but did not utter much complaint for fear his anticipated pleasure would be deprived him. The disease was probably on him at the time. Last Friday it was deemed wise to perform the tracheotomy operation, so completely filled up with membrane was the throat that breathing was done with great difficulty. An incision was made in the windpipe from the outside, and a sponge applied, the patient from that time until he died breathing through the artificial channel thus formed. The lad was exceedingly precocious for one of his age, and strongly desired to live, and "go fishing," his camp life pleasure being associated primarily with that pastime; but although he desired to live he told his parents "not to worry," if he died, because he was not afraid to die. His death was a conscious dissolution, and free from pain. He received unremitting care from the entire party, the children of the other families, having been sent home immediately on the exhibition of the perforce disease. The illness of this child under the painful circumstances, dying as he did in the midst of a pleasure excursion, almost has created great interest in the case and caused general sympathy and condolence to result from the sad termination. The remains were brought to Elmira yesterday about noon, the rest of the camping party, who went away happy with anticipations, returning full of sadness shortly after.

Bradford Oil Market.

Bradford, Pa., Aug. 2, 1880.
Market opened at 94¢. Highest figures during the day, 96¢; lowest figures, 92¢. Closed at 95¢.

Rather Too Fresh.

Mr. John Moore, of this city, is undoubtedly a young man of fine abilities, and considerably above the average as a stump speaker, but he is apt to be a little sudden. If he will read the card of Judge Smith with even ordinary care, he will perceive that the Judge has replied to a challenge emanating from the *Hornellsville Tribune*, and that it is for the editor of that paper to name the Democrat who is to meet him in debate. Should Mr. Moore be selected, his desire to discuss with the Judge will be fully gratified, and he will find plenty of music without the aid of a band.

Cars on the Track.

A brake beam on a car of Northern Central freight train No. 84, broke yesterday about noon, a short distance south of Ralston. About twenty cars were thrown off, blocking the track until eight o'clock last evening. The express train due in Elmira from the South at 6 P. M., was abandoned, and consolidated with the train due at 11 P. M. The Hon. Frederick Douglass was a passenger on the first named train, and arrived at the hour last stated, to take part in the celebration to-day.

ANOTHER WRECK.

A freight train got off near Horseheads in the afternoon. The train due in Elmira from the north at 9:30 had not arrived at 12 last night.
