

# NINETEENTH-CENTURY MOVEMENT(S)

April 13-16, 2023

Knoxville, TN

Although our recent experience has been of restricted movement due to the pandemic, we live in a time of change to the ways we move (electric vehicles, space travel), mass dislocations and migrations around the world, and movements for political change (Black Lives Matter, #MeToo) tied to new communication tools.

The nineteenth century was also marked by accelerating movement(s): of peoples, commodities, ideas, technologies, and feelings. The period was characterized by the modernization of transportation, communication, and travel. Dance, theatre, sports, and literature flourished through new forms of physical movement that moved audiences in affectively novel ways. Political, social, and aesthetic movements reshaped culture and society. We welcome proposals on nineteenth-century movement and movements of all kinds.

## Your paper might address

- Modes of transportation
- Travel and travel writing
- Energy and mechanized movement (steam power, horsepower)
- Communication and News (mail, telegraph, mass media)
- Globalization/Migration/Dislocation
